

Bretons Manor – security improvements

Councillors Barry Mugglestone and Stephanie Nunn (Elm Park Ward) asked for a site visit to review security at Bretons Manor after an unexpected incursion by travellers on 12 April 2021 at Bretons Manor.

We had previously asked for improved security with regard to the current barriers in place as they had been damaged.

Although the travellers only stayed for a few hours due to an interim injunction Havering have in place (details below), they gained entry by illegal means which was all recorded on the excellent CCTV system in place at Bretons Manor.

This interim injunction, granted on 10 and 11 September 2019, is to prevent unauthorized encampments across 200 sites in Havering which are listed along with named defendants.

Caravans were stopped midway when entering Bretons by police officers, so some were in the overflow car park and some were on the verge opposite.

Police officers blocked the entrance and we were all there for 2 hours until the enforcement officer arrived with a copy of the injunction. Caravans then moved swiftly away.
