

**Carriageway Resurfacing Works – O/S 278 Abbs Cross Lane to O/S 574 South End Road, Hornchurch**

:

**15<sup>th</sup> – 17<sup>th</sup> September 2021, 19:30 – 06:00 nightly**

During these road works the carriageway of Abbs Cross Lane / South End Road will be closed to through traffic between Elm Park Avenue and Coronation Drive with diversions in place.

Any vehicles wishing to access or leave properties within the closed section, may be required to drive the diversion route, however, there will be traffic marshals located at either end of the road closure to offer the best advice for access, based on individual requirements at any particular moment in time. Please ensure that social distancing guidelines are adhered to when speaking to the traffic marshals.

When entering the restricted area special care should be taken with regard to contractor's plant & freshly laid surfacing material. Would you also please ensure that any vehicles belonging to you are not parked in the above section of road whilst the work is in progress?

Sometimes while undertaking these works it is not possible to follow the social distancing guidelines to the full, and where this occurs mitigating actions will be taken to reduce the risk of transmission of the Coronavirus. Such mitigating actions include such things as cohorting (keeping the same members working in the same work gangs as much as possible), keeping windows open on vehicles that contain more than one operative and increased hand sanitizing. These are all in line with the guidance issued to the construction industry by the government.

If you require any more information, please do not approach the operatives on site at this time but call Marlborough Highways on 020 7739 2976. The Contractor will also have Site Supervisors in attendance whilst the work is in progress who can be contacted on 07736 891784.

Should the programme be delayed due to inclement weather, mechanical breakdowns or circumstances due to updated guidelines surrounding the Coronavirus then signs will be erected either end of the street indicating the revised dates.
